

Customer Journey Map

Date	04 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	2 Marks

Customer Journey Map

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens the HDI Prediction website. • Reads the project information. • Enters development indicators such as Life Expectancy, Education, and GNI.	• Clicks the Predict HDI button. • Waits for the system to process the input. • Reviews the predicted HDI value.	• Views the HDI category. • Analyzes the prediction result. • Uses the information for research or decision-making.
Touchpoint <i>What part of the service do they interact with?</i>	• Home Page (index.html) • Input Form • User Interface	• Flask Backend (app.py) • Machine Learning Model (HDI.pkl) • Prediction Process	• Result Page (result.html) • HDI category Display • Predict Again Button
Customer Thought <i>What is the customer thinking?</i>	• Is the system easy to use? • Will it provide accurate predictions? • Are my input values correct?	• How long will the prediction take? • Is the model reliable? • Will I get meaningful results?	• The prediction looks useful. • I can compare different values. • This helps me understand the country's development level.

Customer Feeling <i>What is the customer feeling?</i>	• Curious • Interested • Hopeful	• Excited • Slightly anxious • Expecting accurate results	• Satisfied • Confident • Informed
Process Ownership <i>Who is in the lead on this?</i>	User & Web Interface	Flask Application & Machine Learning Model	Flask Application & User
Opportunities <i>How can we improve this stage?</i>	• Add tooltips for each input field. • Provide input validation. • Improve the user interface.	• Optimize prediction speed. • Display a loading animation. • Handle invalid inputs gracefully.	• Show graphical visualization of the HDI score. • Allow report download. • Add country-wise comparison and historical trends.
