

Demonstration of Proposed Features

Date	3 July 2026
Team ID	
Project Name	Human Development Index (HDI) Prediction – A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	HDI Data Input	Allows users to enter Life Expectancy, Expected Years of Schooling, Mean Years of Schooling, and GNI per Capita.	Implemented	Yes	User-friendly input form created.
2	HDI Prediction	Predicts the Human Development Index using the trained Linear Regression model.	Implemented	Yes	Accurate prediction generated.
3	Development Category Classification	Classifies the predicted HDI as Low, Medium, High, or Very High Human Development.	Implemented	Yes	Category displayed with prediction.
4	Flask Web Application	Provides a web interface for users to access the prediction system.	Implemented	Yes	Successfully integrated with the ML model.
5	Model Saving and Loading	Saves the trained model using Pickle and loads it for prediction.	Implemented	Yes	Model reused without retraining.
6	Prediction Result Display	Displays the predicted HDI value and development category on the result page.	Implemented	Yes	Results displayed clearly and accurately.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
