

Project Demo Planning

Date	3 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the team, project title, objectives, and the importance of HDI prediction.	2	Snehitha
2	Dataset & Machine Learning Model	Explain the HDI dataset, preprocessing steps, feature selection, Linear Regression model, and evaluation metrics.	3	Snehitha
3	Web Application Demonstration	Demonstrate the Flask application by entering Life Expectancy, Expected Years of Schooling, Mean Years of Schooling, and GNI per Capita to generate an HDI prediction.	4	Santhoshi
4	Prediction Results	Show the predicted HDI value and the corresponding Human Development category (Low, Medium, High, or Very High).	2	Santhoshi
5	Project Features & Benefits	Highlight the key features, advantages, and practical applications of the HDI Prediction System.	2	Snehitha
6	Conclusion & Questions	Summarize the project, discuss future enhancements, and answer questions from the evaluators.	2	Santhoshi & Snehitha

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for predicting the Human Development Index using machine learning and the challenges of manual analysis.
2	Solution Overview	Describe the dataset, preprocessing, Linear Regression model, Flask framework, and overall system architecture.
3	Live Feature Demonstration	Run the Flask application, enter sample values, and demonstrate the HDI prediction along with the development category.
4	Q&A Session	Answer questions from the evaluators, explain the model's performance, and discuss possible future improvements.
